

[Blue or Black WSP options]

Aquashadow[®] Lake and Pond Colorant Pouches

Aquashadow[®] Lake and Pond Colorant is a concentrated dye formulation packaged in convenient pouches. The water-soluble pouch dissolves and the water either colored a blue or reflective black to beautify off-colored or murky water. Just toss the pouches in your pond.

For use in lakes, ponds, decorative features and other impounded bodies of water with limited outflow. Great for golf courses to aesthetically conceal underwater equipment.

KEEP OUT OF REACH OF CHILDREN

Read all Precautionary Statements and First Aid on package.

FIRST AID

IF INHALED:	Remove individual to fresh air. Seek medical attention if breathing becomes difficult or if respiratory irritation develops.
IF ON SKIN OR CLOTHING:	Flush skin with water for 15 minutes. Take off all contaminated clothing and dispose. Seek medical attention if irritation develops.
IF IN EYES:	Flush eyes with plenty of water for at least 15 minutes. Seek medical attention if irritation develops.
IF SWALLOWED:	Immediately drink water to dilute. Seek medical attention if symptoms develop. Never give anything by mouth to an unconscious person.
Have the product container with you when calling a poison control center or doctor or going for treatment. IN CASE OF EMERGENCY, CALL INFOTRAC at 1-800-535-5053 .	

PRECAUTIONARY STATEMENTS:

May cause eye or skin irritation. Do not get in eyes, on skin or on clothing. Wear waterproof gloves when handling. Do not taste or swallow. Wash hands thoroughly with soap and water after use. Concentrated product can stain fabric and other porous surfaces. Avoid direct contact with these materials.

Keep original packaging for future reference.

DO NOT REMOVE POUCHES FROM PACKAGING UNTIL PRODUCT IS TO BE USED.

WATER USE RESTRICTIONS: Allow several hours for product to disperse before swimming, irrigating, or fishing. Do not apply directly to drinking water sources. When used at recommended dosage rate, treated water will not stain exposed surfaces. When used at recommended dosage rate, treated water will not harm fish, waterfowl, pets or wildlife.

DIRECTIONS FOR USE:

- Determine water volume (acre-feet or cubic meters) as follows:
Length (ft.) x Width (ft.) x Average Depth (ft.)/43,560 = Acre-Ft
Note: One Acre-ft = 326,000 gal. = 1,234m³
- Use one 4.3 oz. pouches for each acre-ft of water as determined in #1 above.
- Remove pouches from packaging with a dry, gloved hand. Apply by gently tossing pouch into the water body. If multiple pouches are needed, space evenly around the water body.
- Pouches dissolve within several minutes, releasing product. Complete, even dispersion will occur within hours after treatment, depending upon water movement.
- As needed, add pouches to maintain desired color effect following dilution or water exchange.
- Do not handle pouches with wet hands or gloves or place on wet surfaces. Chlorine or oxidizers will cause this product to fade.

STORAGE & DISPOSAL: Store in cool place in closed container. Do not freeze. Freezing may cause pouch film to become brittle. Keep pouches in original packaging until ready for use. Offer pails for recycling or dispose of according to state and local regulations. In case of spill, sweep up dry material carefully, wipe up excess with rags, and dispose of properly.
