

# BLUE SPRINGS<sup>®</sup> POND COLORANT

This product is a water-soluble dye designed for use in lakes, ponds, decorative water features and other impounded bodies of water with limited outflow. This product beautifies murky, cloudy or off-colored water with a pleasing natural blue tint.

- Beautifies water in lakes, ponds and & decorative water features
- Concentrated – one gallon treats 1.25 million gallons
- Easy to apply – just pour around the edges
- Disperses quickly and evenly within hours
- Once dispersed, treated water may be used for swimming, fishing, & irrigating.

## KEEP OUT OF REACH OF CHILDREN

### CAUTION

May cause eye or skin irritation.

See precautions statements and first aid on label.

### FIRST AID

**IF IN EYES:** Immediately flush eyes with plenty of water for at least 15 minutes. Seek medical attention if irritation develops. Seek medical attention if irritation develops.

**IF ON SKIN:** Take off contaminated clothing and launder before reuse. Rinse skin immediately with plenty of water for 15 minutes. Seek medical attention if irritation develops.

**IF SWALLOWED:** Immediately drink water to dilute. Seek medical attention if symptoms develop. DO NOT induce vomiting unless told to do so by a physician. Never give anything by mouth to an unconscious person.

**IF INHALED:** Remove individual to fresh air. Seek medical attention if breathing becomes difficult or if respiratory irritation develops.

**IN CASE OF EMERGENCY, CALL INFOTRAC at 1-800-535-5053.**

### PRECAUTIONARY STATEMENTS:

**CAUTION.** Contains Acid Blue 9. Concentrated product may cause eye or skin irritation. Do not get in eyes, on skin or on clothing. Wear safety glasses or goggles and rubber gloves when handling. Do not taste or swallow. Wash hands thoroughly with soap and water after use. Remove and wash contaminated clothing before reuse. Do not mix with any other chemical. Concentrated product can stain fabric and other porous surfaces. Avoid direct contact with these materials.

## DIRECTIONS FOR USE

### LARGER WATER FEATURES:

1. Determine the water volume (acre-feet or cubic meters) as follows:

$$\frac{\text{Length (ft.)} \times \text{Width (ft.)} \times \text{Average Depth (ft.)}}{43,560} = \text{Acre-Feet}$$

Or

$$\text{Length (m)} \times \text{Width (m)} \times \text{Average Depth (m)} = \text{Cubic Meters}$$

$$\text{Note: One Acre-foot} = 325,000 \text{ gallons} = 1,234 \text{ m}^3$$

2. Use from 0.25 to 0.50 gallons (0.95 to 1.9L) of this product per 4 acre-foot of water as determined in #1 above. Pour from the container near shoreline into water. Complete, even dispersion of this product should occur within hours after treatment, depending upon water movement. Add additional amounts of this product as needed to maintain desired coloration effect following dilution or water exchange.

### SMALLER WATER FEATURES:

Use 1 fluid ounces of this product for each 10,000 gallons of water. Measure and pour directly into water feature. Complete, even dispersion of this product should occur within hours after treatment, depending upon water movement. Add additional amounts of this product as needed, to maintain desired coloration effect following dilution or water exchange.

## STORAGE AND DISPOSAL

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep from freezing. Do not reuse empty container. Rinse empty container thoroughly with water, then offer for recycling, or dispose in accordance with state and local regulations. In case of spill, contain spillage, soak up with appropriate absorbent material and dispose of according to local regulations. Then flush area with water, avoid runoff into storm sewers.

## WATER USE RESTRICTIONS

- Allow several hours for this product to disperse before swimming, irrigating, or fishing.
- Do not apply this product directly to drinking water sources.
- When used at the recommended dosage rate, treated water will not stain exposed surfaces.
- When used at the recommended dosage rate, treated water will not harm fish, waterfowl, pets, or wildlife.
- Chlorinated water will cause fading, requiring higher dosages or more frequent treatments.

**NOTICE:** Neither the manufacturer nor the seller makes any warranty, expressed or implied, concerning the use of this product, other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instructions. Read and follow the label directions carefully.
