

ProcellaCOR[®] SC

Aquatic Herbicide

Seeks, shatters, and eliminates invasive weeds.

- Long-term control for tough weeds
- Reduced risk classification from EPA
- Incredibly selective and targeted

General Use Guide*

PDUs*

In-water applications	Foliar applications
1 - 5 PDU/acre foot	1 PDU/surface acre

*Visit with a SePRO Technical Specialist for information. 1 PDU is equivalent to 16oz.

Application Tips: The PDU System

The PDU system takes multiple factors needed for dosing an aquatic environment and simplifies that into a single unit. The PDU system is incorporated into the bottle. The result is from the bottle to the water dosing is simple, accurate, and repeatable.

Typical ProcellaCOR rates will be simple 1-5 PDUs. Here is an example of how to apply 4 PDUs to a water body:

STEP 1
Tip and measure
4 PDUs

STEP 2
Mix 4 PDUs
with water
in application
equipment

STEP 3
Apply the
4 PDUs
to impacted
water body

Features:

- Lasts longer than other solutions
- Less product needed for treatment
- Prevents weeds from growing back
- Targets hormone mechanism in certain plants and attacks root
- Custom Rx's from SePRO Technical Specialist always available
