

Galleon® SC

Aquatic Herbicide

Broad spectrum control of both floating & submersed weeds.

- Long-term control on variety of weeds
- Low product volumes
- Great curly-leaf pondweed tool
- EPA Reduced-Risk Aquatic Herbicide

General Use Guide*

In-water applications (Hydrilla, Pondweeds)	Foliar applications (Giant salvinia, Waterhyacinth)
5 - 30 ppb	2 - 4 oz/acre

*Visit with a SePRO Technical Specialist for information, rates assume < 5 foot average depth

Effective, Convenient Control

- Immediate growth inhibition followed by complete control over 60 to 120 days.
- Much-needed, additional systemic mode of action for hydrilla control in integrated control programs designed for improved herbicide resistance management.
- Good safety on perennial aquatic grasses such as maidencane and knotgrass, and many other desirable native plants including coontail, lotus, and waterlily.

Features:

- Targets hydrilla, water hyacinth, salvinia, duckweed, & more
- Gradual control maintains water quality and ecosystem health
- Can be applied by injection, foliar spray, or directly to sediment
- Custom Rx's from SePRO Technical Specialist always available
