

**Company:** EutroPHIX

**Position:** Water Quality Technical Specialist

**Territory:** Florida

**Supervisor:** National Manager

### Overview

We are seeking an enthusiastic technical expert to join our industry-leading team of environmental professionals. The Water Quality Technical Specialist will guide clients toward solutions to water resource impairment, providing technical stewardship and engaging key stakeholders in the process.

EutroPHIX, a division of SePRO Corporation, is dedicated to accelerating water quality restoration. We employ best-in-class technologies and decades of technical expertise to help clients restore the water bodies they depend on. We believe everyone deserves clean, safe and enjoyable water!

### Primary Responsibilities

- In collaboration with the National Manager build and execute the strategy for water quality restoration in Florida
- Utilize technical knowledge and communication skills to develop a pipeline of customers focused on the protection, preservation, and restoration of water resources (e.g., harmful algal blooms and phosphorus mitigation)
- Conduct assessments to develop proposals and execute water quality restoration programs
- Provide technical support, project oversight, and management for turn-key offerings
- Expand strategic business and technical relationships with consultants, government contacts, and private stakeholders
- Introduce and represent EutroPHIX at industry meetings, training events, and other outreach opportunities
- Conduct overnight travel as needed (up to 2-3 nights per week).

### **Education and Experience**

- Advanced degree preferred in Environmental Science, Ecology, Biology, Political Science or Environmental Engineering.

**Requisite Skills**

- At least 3 years' experience in water resource management or related field with specific experience in the state of Florida
- Strong written and verbal communication skills
- Ability to develop understanding through active listening and inquiry
- High degree of self-initiative and drive
- Commitment to continuous learning
- Ability to learn quickly and adapt to new situations and environments
- Excellent customer service skills
- Ability to manage numerous projects simultaneously
- Strong computer skills, with emphasis on Microsoft Office
