

# Blue Springs® Plus

## Aquatic Dye

## Sometimes being blue is a good thing.

- More concentrated than the original
- Easy to apply – just pour around edges
- Disperses quickly and evenly

### General Use Guide\*

Lighter color blue	Darker color blue
8 oz per acre-ft	13 oz per acre-ft

\*Visit with a SePRO Technical Specialist for information.

### Application Tips:

Pour directly into water. Dispersion can be accelerated by applying in several areas around the treatment site, or allowing fountains/aerators to run. Determine water volume then apply by pouring the colorant solution around the edges of desired area.

### Restrictions & Regulatory Information:

Not for (direct) use in drinking water. Allow several hours for this product to disperse before swimming, irrigation, or fishing. Do not apply this product directly to drinking water sources.

### Features: *Do more with less*

- Tints the water a pleasing blue
- For use in lakes, ponds, and decorative water features with little or no overflow
- Easy application
- No water restrictions for pets, swimming, fishing, or irrigation
- Custom Rx's from SePRO Technical Specialist always available
