

# Solutions to Help You Create an Extraordinary Golf Course

**Cutless® QuickStop Landscape PGR**  
Save 30 - 70% on trimming labor with long-lasting regulation while improving the aesthetic appeal of landscapes

**Musketeer® Turf Growth Regulator**  
Triple PGR technology that uniquely and effectively regulates and enhances desired turfgrasses

**Legacy® Turf Growth Regulator**  
All-in-one PGR for use on greens, tees, and fairways, along with surrounds and bunker complexes

**Cutless® 0.33G Landscape/Ornamental Growth Regulator**  
Requires less trimming of hedges, shrubs, and groundcovers

**EutroSORB® F Phosphorus Filtration Technology**  
To intercept nutrients in flowing waters; The easiest way to improve water quality

**SeClear® Algaecide and Water Quality Enhancer**  
Control unwanted algae while reducing in-water nutrients

**EutroSORB® WC Water Column Phosphorus Inactivator**  
To remove nutrients that are already present in the water

**Cutless® MEC Turf Growth Regulator**  
The premier PGR for turf quality enhancement and *Poa annua* suppression

**Captain® XTR Algaecide**  
The most powerful algaecide with **Infusion** technology to breakdown tough scums

**SonarOne® Aquatic Herbicide**  
Preemergent aquatic weed control in an easy to apply pellet formulation

**Legacy® Turf Growth Regulator**  
All-in-one PGR; no rebound, extended spray intervals, superior growth regulation

Learn More about Pond Management

## Problem

## Solution

Thick algae mats throughout your irrigation pond

**Captain® XTR Algaecide**  
Fight tough algae with Infusion technology

Quick regrowth of algae in irrigation ponds after traditional algaecide use

**SeClear® Algaecide and Water Quality Enhancer**  
Algaecide and water quality enhancer in one

Excessive nutrients flowing into irrigation ponds, causing algae\*

**EutroSORB® F Phosphorus Filtration Technology**  
Immediately binds and reduces phosphorus concentrations

Excessive nutrients already present in irrigation ponds, causing algae\*

**EutroSORB® WC Water Column Phosphorus Inactivator**  
Eliminates phosphorus from the water column

Undesirable floating, emersed and submersed weeds

**SonarOne® Aquatic Herbicide**  
An easy to apply formulation that delivers an effective dose to targeted plants

## Problem

## Solution

Fast growing landscapes that need to be trimmed often

**Cutless® QuickStop Landscape PGR**  
Reduces trimming labor by 30 - 70% with long-lasting regulation

Hedges, shrubs, and groundcovers that are out of control

**Cutless® 0.33G Landscape PGR**  
Consistent, long-lasting regulation of landscapes with excellent plant safety

Inconsistent turf growth and diminished course playability from annual bluegrass

**Cutless® MEC Turf Growth Regulator**  
Premier PGR for unsurpassed turf quality and *Poa annua* suppression

Difficult-to-mow areas like bunker complexes and *Poa annua* encroachment on tees, fairways, surrounds

**Legacy® Turf Growth Regulator**  
All-in-one PGR with no rebound and superior growth regulation

Growth suppression of multiple turf types

**Musketeer® Turf Growth Regulator**  
Enhanced suppression with triple PGR technology

\*1 pound of phosphorus can grow 500 pounds of algae
