

Legacy[®]

Turf Plant Growth Regulator

Use Legacy for More

Using Legacy for Green & Tee Surrounds and Bunker Complexes

- Reduce mowing and trimming
- Enhanced clipping control
- Consistent growth regulation for up to 4 - 6 weeks
- Uniform regulation across mixed turf stands
- Improved turf quality
- Easily tank-mixed with fungicides and/or fertilizers

Save Time and Labor with Legacy

Using Legacy can save time and money on the labor-intensive areas throughout your course. The unmatched growth regulation and extended residual control make Legacy a great solution to reduce clippings, mowing, and trimming beyond your greens, tees, and fairways.

Application Rates*

	Cool-season Rates	Warm-season Rates
Broadcast Application	15 - 30 fl. oz/acre	8 - 20 fl. oz/acre
Banded/Edging Application	1 - 2 fl. oz/gallon	

*Application rates listed are general range suggestions and should be adjusted based on geography and label directions. Establish specific application rates based on small-scale treatment areas.
