Address disease and weeds effectively with our targeted treatments. Explore SePRO's offerings to keep your course and landscapes in peak condition.

Cutless® MEC & Cutless® 50W Turf Plant Growth Regulator

- Best-in-class turfgrass color and density
- Does not inhibit lateral growth
- Use for *Poa annua* management in cool- and warm-season turfgrass

Legacy® Turf Plant Growth Regulator

- All-in-one PGR solution for greens, tees, fairways, and now sports fields
- Eliminates the "rebound" effect
- Uniform regulation across all mixed turf stands

Musketeer® Turf Plant Growth Regulator

- Economical solution to effectively regulate and enhance desired turfgrass
- Exceptional turf safety
- Extend spray intervals compared to other PGR

Cutless® Granular Landscape Growth Regulator

- Systemic landscape growth regulator for consistent and long-lasting regulation
- Save time, labor and money vs. repeated trimmings
- Effective on wide-range of species

Cutless QuickStop® Landscape/Ornamental Growth Regulator

- Fast-acting regulation for up-to 3 months
- Reduce trimming requirements by 30 - 70%
- Saves labor and beautifies landscapes

Cutless® Shrub and Tree Sculptor Landscape/Ornamental Growth Regulator

- Season-long regulation with a single application
- For use on large woody species (5 - 15 ft)
- Easy granular application
