

Octane® & Cutless QuickStop® Application Rates

Improve broadleaf, nutsedge, and grassy weed control with Octane in the tank

- Broadleaf control:** Add Octane to Trimec®, Triplet®, etc.
- Nutsedge control:** Add Octane to Sedgexhammer®, Celero®, etc.
- Grassy weed control:** Add Octane to Drive®, Acclaim®, Quinclorac, etc.

- Effective in all climates, with no temperature restrictions (hot or cold)
- Rapid kill—visual symptoms evident in 24 - 48 hours
- Excellent turf safety on both cool- and warm-season grasses
- Can be applied to newly seeded, sodded, or sprigged turf as a standalone
- Controls silvery-thread moss
- Rainfast within 1 hour

Application rate and spray volume for broadleaf weed control

Applied in a tank-mix: Apply Octane at a rate of **1.5 fl. oz./A** in tank-mix combinations with herbicides registered for use such as amines, esters, and salts of 2,4-D, chloroprop, dicamba, mecoprop, triclopyr, fluroxypyr, sulfonyleurea, and other systemic herbicides for control of annual weeds and perennial weeds. For tank-mixing with herbicides, *always read and follow the product label directions.*

Applied alone: Apply Octane at rates of **3 to 4 fl. oz./A** in 20 to 40 GPA of water for control of seedling, non-mature winter and summer annual weeds and/or for temporary burndown of weeds. Tank-mixing Octane with other broadleaf herbicides may be needed for control of larger winter and summer annual weeds.

Backpack Sprayer Dosage Chart

For spot spraying with a backpack or small hand held sprayers targeting a rate of 1.5 fl. oz./A, measure 1.0 to 2.1 ml of Octane per 1 gallon of water, using the eye dropper replacement cap that comes with each bottle of Octane. Spray targeted plants to completely wet the surface. For specific measurements, see the table below.

Spray volume (gal/A)	Spray volume (gal/1,000 sq. ft.)	Rate (mL product/gal)
20	0.5	2.1
30	0.75	1.4
40	1.0	1.0

Cutless QuickStop®

Features & Benefits of Cutless QuickStop

Features	Benefits
Fast-acting	Immediate reduction in trimming labor
Broad-spectrum	Effective on a wide range of species ensures consistent regulation across your landscape
Long-lasting	Several months of regulation means fewer applications for better results
Cost Effective	Save 30 - 70% on trimming labor
Forgiving	Low phytotoxicity potential—you don't have to sacrifice plant appearance
Residue Free	No unsightly residue following application

Cutless QuickStop Rate Guidelines

Plant	QuickStop Rate
Abelia	5-7 oz/gal
Arboricola, Green	7 oz/gal
Arboricola, Trinettes	7 oz/gal
Azalea	4-5 oz/gal
Bougainvillea	5-6 oz/gal
Boxwood	6-7 oz/gal
Bush Daisy	3-4 oz/gal
Clusia	7 oz/gal
Cocoplum	7 oz/gal
Crotons	5-7 oz/gal
Euonymus	5-6 oz/gal
Ficus	7 oz/gal
Ficus, Green Island	5-7 oz/gal
Firebush	6-7 oz/gal
Forsythia	5-7 oz/gal
Gardenia	5-6 oz/gal
Goldmound Duranta	2-4 oz/gal
Hibiscus	5-6 oz/gal
Holly, Burford	6-7 oz/gal
Holly, Dwarf Yaupon	5-6 oz/gal
Hydrangea	4-5 oz/gal
Indian Hawthorn	5-6 oz/gal
Ixora	6-7 oz/gal
Jasmine, Asiatic	5-7 oz/gal
Jasmine, Confederate	5-7 oz/gal
Jasmine, Downey	5-7 oz/gal
Jasmine, Star	6-7 oz/gal

Plant	QuickStop Rate
Jasmine, Wax	6-7 oz/gal
Juniper	4-5 oz/gal
Lantana	5-6 oz/gal
Ligustrum	7 oz/gal
Loropetalum	6-7 oz/gal
Myrtle, Crape	6-7 oz/gal
Myrtle, Wax	6-7 oz/gal
Nandina	6-7 oz/gal
Oleander	7 oz/gal
Photinia, Red Tip	5-7 oz/gal
Plumbago (Growth Control)	6-7 oz/gal
Plumbago (Increase Bloom)	5-6 oz/gal
Podocarpus	6-7 oz/gal
Privet	5-7 oz/gal
Privet, Variegated	5-7 oz/gal
