Successful Pre-Emergent Programs:

- For effective & long-lasting weed control, overlapping residual herbicides are essential.
- Well-timed pre-emergent applications will significantly reduce the need for post-emergent treatments.
- Use diverse modes of action to minimize the potential for herbicide resistance.
- StriCore® tank-mixed with other pre-emergent herbicides to expand the spectrum and duration of weed control.

SKU	Coverage	Rate
1 gal.	2.67 Acres	48 oz / A
4 x 1 gal. case	10.67 Acres	48 oz / A

Product Selection Considerations:

- Site
- Soil type
- Irrigation
- Application timing
- Application method
- Most common weed species
- Previous PRE herbicide applications
- Ornamental species/Herbicide drift risk

The Benefits of Tank Mixes

- Resistance management
- Broader spectrum of weed species controlled
- Provides multiple PRE with different strengthens for residual efficacy and longevity under different environmental conditions
