

Simplifying Your PGR Program

Easy as 1-2-3

Making the most of your PGR program doesn't have to be difficult. Following the steps below, choose the right PGR to meet your course needs. Be sure to start at the correct rate and reapply in-season for consistent regulation.

1 Evaluate your PGR options

2 Start at correct rate & make at least 2 applications

3 Increase rates in-season

Grass Type	Zoysia fairways & tees	Paspalum fairways & tees	Bermuda grass fairways & tees	Bermuda grass greens	Zoysia fairways & tees	Paspalum fairways & tees	Bermuda grass fairways & tees	Bermuda grass greens
Application Interval	3 wks.	3 wks.	3 wks.	2 wks.	3 wks.	3 wks.	3 wks.	2 wks.
Cutless® 50W (wetable powder)	4 oz./acre	6 oz./acre	5 oz./acre	N/A	5 oz./acre	8 oz./acre	6 oz./acre	N/A
Cutless® MEC (liquid) • <i>Poa annua</i> conversion • Enhance turf quality • Exceptional turfgrass safety	12 fl.oz./acre	18 fl.oz./acre	14 fl.oz./acre	1 fl.oz./acre	16 fl.oz./acre	24 fl.oz./acre	18 fl.oz./acre	1.5 fl.oz./acre
Legacy® • Consistent turf growth regulation • Premier warm-season turf PGR • Reduce "rebound effect"	8 fl.oz./acre	12 fl.oz./acre	10 fl.oz./acre	1 fl.oz./acre	10 fl.oz./acre	18 fl.oz./acre	16 fl.oz./acre	1.5 fl.oz./acre
Musketeer® • <i>Poa annua</i> conversion • Economical PGR solution • Exceptional turf safety vs. paclobutrazol	N/A	N/A	18 fl.oz./acre	N/A	N/A	N/A	24 fl.oz./acre	N/A
